

Items of Praise

- We are seeing Cambodians coming to Christ through the Hope Video and the Proclaimer.
- Our partnership with Bread of Life ministries.
- Wesley is back with us and going to Hope school with Hannah..

Prayer Requests

- The Mercy Medical Center Project. Please pray God will provide the funds .
- The Hope Video Ministry. Please pray for God's wisdom in developing the Khmer Hope Video Study Guide (flip chart).

Home for the Summer

Kirk, Kelle, Chase, Wesley and Hannah

This summer we traveled back to Texas where we were able to spend time with our son Chase, family members, and friends.

During that time, we shared with six differ-

ent churches about the ministry work we are doing in Cambodia.

Three of these churches were primarily Khmer fellowships

from the Dallas/Fortworth and Houston areas. We learned so much from them about how we can better serve the Cambodian people.

Our home Church, Boerne First Baptist in-

roduced us to a new ministry tool called the Proclaimer . It is basically an audio Bible that can be distributed in primarily illiterate villages. Praise God now everyone can hear the Word!

Our friends from Mars Hill Productions. The Producers of the Original HOPE Video

God's work in the Provinces

Today we started out with Pastor Keath to a house in Prey Boh Village where Church is held. Most of those who came attended the church on a regular basis. They came to see the Hope Video which they had never seen anything like this. This community is a body of New Christians. No one

had ever studied the bible in length before and most of them are illiterate. The Hope video was a good introduction for explaining in simple language the love and redemptive work of God.

After the showing. Bunny, our driver/evangelist, explained about important biblical

teachings. One Women said, " Before I did not believe but today, after seeing and hearing, It's made clear to me so now I believe in Jesus."

Detail design The Mercy Medical Center

God for His wisdom and leadership as we follow His will.

The project has been sized down from the original 2,000 meter size to a much more efficient / cost effective 1,500 meter size, and with no loss of services requirements.

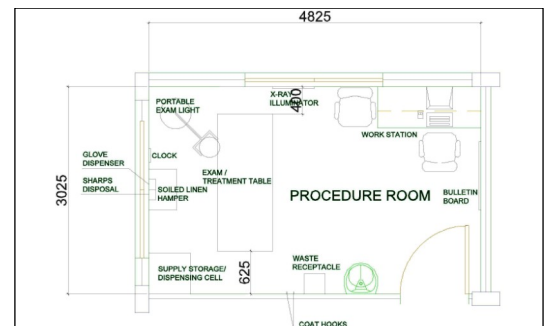

We have been very busy during the months of August through October in Finalizing the Design Development Drawings for the New Mercy Medical Center. We especially want to thank the team at Mercy Medical for their help in this effort and above all

In early October we performed the first physical work on the site by drilling a small diameter test hole so that we can determine the bearing capacity of the soil thus enabling the Foundation design to be completed. If everything continues according to our design schedule we should have all Structural and Foundation design completed before the end of the year. This will be a major milestone in that it will enable us to begin constructing

the New Medical building foundation in January 2010, and God willing have the entire New building structure “dried in” before the rains return in the summer of 2010.

Please check our website for latest design details.

Getting help from Khmer pastors and Bible students

Through much prayer and help from our partners at Bread of Life ministries we have begun the process of developing a discipleship tool that can be used by pastors in the Provincial villages of Cambodia. This new tool is basically the Khmer

Hope Video put onto a Flip Chart (24” wide x 16” tall). The Flip Chart will have approximately 5-pictorial pages for every one of the 12-chapters in the Hope Video. One the back of each picture page will be the Khmer text plus all associated Bible scriptures and questions with answers for the pastors. This flip chart is being developed for use as a follow-on study guide in the villages. The pastor or missionary will go chapter by chapter probably over a 12-week period through the biblical presentation of the gospel message as shown in

the Khmer Hope Video.

Each village will also be given a Khmer Proclaimer (audio bible) so that during the week they can hear God’s Word. Please pray that God will give us the wisdom needed to complete this project.
